

MX Licensing Options

The MX Security Appliance has multiple license editions: Enterprise and Advanced Security. Please note that the MX licensing edition is uniform across the organization. For example, you can have all 25 appliances using Enterprise Edition or Advanced Security Edition, but you cannot have 20 appliances using one edition and 5 using the other edition. If you wish to use Enterprise Edition for some appliances and Advanced Security Edition for other appliances, you need to create two organizations, one for your appliances with the Enterprise Edition, and another for the appliances with the Advanced Security Edition.

The following table provides a list of major MX features and their required license edition:

Feature	Enterprise license	Advanced Security license
Stateful firewall	✓	✓
VLAN to VLAN routing	✓	✓
Link bonding / failover	✓	✓
3G / 4G failover	✓	✓
Traffic shaping / prioritization	✓	✓
WAN optimization	✓	✓
Site-to-site VPN	✓	✓
Client VPN	✓	✓
MPLS to VPN Failover	✓	✓
Splash pages	✓	✓
Configuration templates	✓	✓
HTTP content caching	✓	✓
Group Policies	✓	✓
Client connectivity alerts	✓	✓

SD-WAN	✓	✓
Geography based firewall rules		✓
Intrusion detection / prevention		✓
Content filtering		✓
Anti-virus and anti-phishing		✓
Youtube for Schools		✓
Web Search Filtering		✓
